# Operating Instructions

---

- **Charging and supplying power to mobile phones/digital devices**
  - To charge, please connect your (5V 1A) supported mobile phone/digital device to the MicroUSB or Lightning output connector of the POWERTUBE II.
  - Turn on the POWERTUBE II by pressing the On/Off button.
  - Red colored lamp on the On/Off button becomes lit and the mobile phone / digital device starts to charge.
  - While the battery capacity of the POWERTUBE II decreases the rate at which the light blinks increases.
  - When your mobile phone/digital device is fully charged, remove it from the POWERTUBE II. The POWERTUBE II will switch off in 10 seconds automatically if no device connected to it.
  
- **Charging the POWERTUBE II**
  - Please connect the USB end of Micro USB cable to a computer or any USB supported (5V 1A) charger. (Computer USB ports without dedicated USB 3.0 support may not charge sufficiently due to the lack of high current capacity. Therefore it is recommended to use a computer with USB 3.0 output or USB charger for charging.)
  - Then connect the other end to the (Micro USB) DC Input of the POWERTUBE II.
  - Green colored light on the On/Off button turns on during charging. It turns off when the POWERTUBE II is fully charged.

## Instructions

---

- Please read the user manual carefully before initial use.
- Full charge the POWERTUBE II before using. If the product will not be used for a while then charge it to its full capacity. Charge it every 3 - 4 months to maximize its life and performance.
- Do not expose the product to heat sources or fire as the battery in it may explode.
  - Do not expose the product to moisture or rain.
  - Do not keep jewellery, keys or other metal objects near the product to avoid damage to the input or output terminals.
  - Do not contact the product with metal or sharp tools, do not drop it and do not put any heavy items on it.
  - Do not attempt to disassemble, repair or change the battery pack as this would cause it to overheat, burn or explode.
  - If the product emits an unusual odour, becomes abnormally hot, changes in colour or shape, please stop using it immediately.
  - Do not insert or pull out the plug forcibly as this may cause damage to the product.
  - Do not use strong chemicals or detergents to clean the product.
  - Please use the computer's USB port (5V 1A) or the Tuncmatik Mobile Chargers (5V 1A) to charge the product. Max. 1A. If you use a poor quality charger and cause any damage, our company cannot take any responsibility.
