

Desktop cooler SU-800 – Powerful cooler with RGB

This CPU cooler, with a smooth running 120mm RGB fan, provides a TDP up to 110W for reliable cooling of your CPU.

The SU-800 is compatible with numerous Intel®- and AMD® sockets. Thanks to the pre-installed mounting clamps for AMD® and accessories for Intel®, it fits on most current platforms and can be mounted quickly. The 120mm RGB fan with 4pin PWM connection will be regulated by the temperature and sets color accents in your case, with a maximum of 30.0dbA.

Its relatively low height of 65mm predestines it for use in smaller computer cases. The cooling fins ensure optimum heat dissipation and ensure excellent cooling performance. Its transparent RGB fan not only visually ensures freshness.
